

# Danika Rowe

## ABOUT THE ARTIST

Danika Rowe is an emerging artist recognized by her dynamic use of color and unique manipulation of alcohol inks.

Expressive landscapes, abstracted elements of nature and organic cross forms are the primary focus of Rowe's work. "Growing up in the Midwest, I love the beauty found in the world around me. I am often awestruck by God's designs in nature and desire to represent them in my own work."

A give and take process of painting allows Rowe to create images that have realism with an earthy and organic quality. And through finishing a majority of the artwork with a Resin coating Rowe's works pop with deep rich colors speaking to the richness and adventure of life.
